

Silicone solutions for acne management

Make DuPont your innovation leader

Formulate effective treatments for acne management

The frustration and discomfort of those afflicted with acne is well-known. While often regarded as a potentially embarrassing but short-term coming-of-age problem for young people, it actually can be a lifelong challenge for many people. Acne sufferers and other consumers are increasingly demanding a higher quality of life and are taking charge of their health and well-being, seeking over-the-counter solutions to address their situations. They need and want soothing and effective acne-management products that can be used on different parts of the body as well as on the face.

To address the growing market need for these in-demand products, DuPont offers a unique and innovative range of silicone-based topical ingredients. The materials are suitable for use in many different forms of over-the-counter healthcare formulations, such as gels, sprays and creams. With their enhanced spreading and sensory properties and long-lasting effects, these topical ingredients can help you create novel and efficacious approaches to acne management.

Affordable pricing with regulatory compliance support

Affordably priced and with the appropriate level of documentation for consumer healthcare, DuPont™ Liveo™ Topical Ingredients include the cost control and regulatory compliance support you need for your products.

With more than 70 years of healthcare market experience in the design of silicone-based systems, you can rely on DuPont for:

- A reliable global supply of reputable, cost-effective silicone-based topical ingredients manufactured specifically for healthcare applications
- Proven aesthetics and functional film characteristics, such as breathability and substantivity
- Test data to support specific claims
- Formulation, regulatory and product development expertise and support
- A regulatory information package aligned with the requirements of the consumer healthcare market

Explore innovative formulations for acne management
